

**Milestones:**

1. Research database solutions and decide on the language and platform for the app
2. Plan the project's timeline and tasks
3. Create the user interface
4. Develop the app's functionality including creating the database
5. Test the app and check for bugs and user friendliness

**Timeline/Effort Matrix:**

Task	Start Date	Completion Date	Team Member	Effort
Research possible database solutions	11/5/2021	11/12/2021	Sydni-Dee Venter	2 hours
Create Database to hold user data and task information	11/5/2021	1/19/2021	Sydni-Dee Venter	3 hours
Design system for registering a user	1/7/2022	2/4/2022	Troy Meadows	8 hours
Create User Object	11/5/2021	11/19/2021	Briana Antiri	2 hours
Develop user authentication/login	1/7/2022	2/4/2022	Briana Antiri	10 hours
Create household	11/5/2021	11/19/2021	Briana Antiri	2 hours
Create Task Objects	11/5/2021	11/19/2021	Briana Antiri	2 hours
Design the user interface for the application	1/7/2022	3/4/2022	Everyone	40+ hours
Design	11/19/2021	1/14/2022	Sydni-Dee	4 hours

mockups for different user flows (ex: household owner vs. household member)			Venter	
Develop the login page for returning users	1/7/2022	2/4/2022	Troy Meadows	10 hours
Develop the registration page for new users	1/7/2022	2/4/2022	Faith Tremmel	10 hours
Design and develop the user profile page	1/7/2022	2/11/2022	Faith Tremmel	8 hours
